Mare Owner must notify Stallion Manager within 48 hours after the time of foaling if the Mare did not produce a live foal. Within 14 days after such notice, Mare Owner must provide Stallion Manager with certification that foaling was an attended birth, accompanied by a statement from a licensed veterinarian giving the particulars required to substantiate the failure

of the Mare to produce a live foal, that the insemination was conducted in accordance with this Agreement, and that the loss of a live foal was not due to the Mare Owner's negligence.

10. If the contracted Mare does not settle or aborts the first year, Stallion Manager will only honor an "on premises" breeding. "On Premises" breeding means the Mare shall be delivered to Stallion Manager for breeding. Board charges and other expenses incurred will be charged.
11. Mare Owner agrees that the Mare will not be returned to performance training or showing after the Mare has been inseminated, until such time as she foals.
12. Stallion Manager makes no guarantee of delivery within a certain time period or that the cooled semen will safely reach the insemination point without losing integrity, quality, or characteristics, but will make a diligent effort to achieve same.
13. This Contract shall be binding upon both parties, and may not be transferred or assigned.
14. This Contract is entered into in the State of Oklahoma and will be interpreted and enforced under the laws of the State.
